

A science capital informed reflection framework to help critically review the strengths, and the challenges of an experience.

---

How does it support all visitors to feel welcome and at home here?

- How is the content/science presented?
  - Does it assume any prior experience or knowledge?
  - Who is included/absent? (Does it exclude any gender/ethnicity etc.?)
  - Does it assume any physical ability?
- 

How does it build visitors' science knowledge and/or skills?

Currently:

How could it be improved?

**WHAT YOU KNOW**

How does it broaden visitors' ideas of who uses science in their everyday life?

Currently:

How could it be improved?

**WHO YOU KNOW**

How does it connect to the visitor and their personal knowledge/experience?

Currently:

How could it be improved?

**HOW YOU THINK**

How does it encourage visitors to think, talk and do further science-related activities?

Currently:

How could it be improved?

**WHAT YOU DO**
