GREAT OBJECT HUNT: OUT AND ABOUT

Follow your curiosity and things that interest you to explore the fascinating world around you. Use your observation and questioning skills to get thinking and talking about the science in all of our lives.

See how many challenges you can complete in 30 minutes.

Top tips for exploring...

- Find different objects or each challenge
- Look up, down and up close and see what you find
- Work together as a team and talk about your choices
- Write down or draw the different things that you find

FOLD 2

Can you come up with your own challenge?

FOLD 1

Find something...

that has triangles on it

that has an interesting pattern

that changes how you see

that needs electricity to work

you can't live without

Find two different leaves, and describe their similarities and differences

Find something...

that light can pass through

with an interesting texture

with numbers on it

you can use to make a reflection

that looks heavier than you

Find something...

you can make a noise with

that could fit in your pocket

that is alive

that is made from natural materials

that would keep you dry in the rain

Find something for each of the colours of the rainbow
